Chadwell SUPPLY

VARIABLE SPEED TECHNOLOGY COSTS LESS TO OPERATE

Pentair

Up to 80%* energy savings

ENERGY STAR

362125
SuperFlo® VST Variable Speed Pool Pump
► Replaces up to 1.5 HP pumps
► 3-speed settings
► Drop-in replacement for Hayward® Super Pump® and Pentair SuperFlo® Pumps

Up to 90%* energy savings

ENERGY STAR

362124
IntelliFlo® VSF Variable Speed and Flow Pool Pump
► Replaces up to 3.0 HP pumps
► 8-speed settings
► Adjust to changes in flow conditions while maintaining system flow requirements

Trichlor Chlorine
► For use in auto chlorinators, floaters & skimmers
► 8 oz. - Slow dissolving

361038 3" Tablets – 25 lb. pail
361037 3" Tablets – 50 lb. pail

REGIONALLY STOCKED

Liquid Chlorine Gallon
► 10% pool chlorine
► Sold by case only

361009 4/CS
361003 3/CS

Calcium Hypochlorite Granular Pool Chlorine
► Compatible with chlorine and salt water chlorine pools
► Kills bacteria, controls algae and destroys organic contaminants
► Shock oxidizer ideal for super chlorination shock treatments

361005 68% available chlorine - 100 lb. pail
361006 68% available chlorine - 50 lb. pail
361010 47% available chlorine - 90 lb. pail

361044
GLB Strike Out Algaecide
► Eliminates green & mustard algae
► 7.4% copper algaecide - Stronger than many competitive brands
► 4 oz. / 15,000 gal
► 32 oz.

361040
Calcium Hypochlorite Pool Chlorine 68%
► 68% available chlorine
► Shock treatment
► Sanitizes and prevents algae
► 1 lb. bag

Due to a nationwide shortage of chemicals, pool supplies availability is limited. We are doing our best to keep you supplied and informed. Log into your account at ChadwellSupply.com or call for pricing and availability.

WHAT TO DO ABOUT THE
TRICHLOR SHORTAGE?

Chadwell Supply is making every effort to remain stocked with Trichlor. Here's what you need to know what to do if you run out...

362014
Taylor
Complete Test Kit
► Test for: chlorine, bromine, pH, acid & base demand, total alkalinity, calcium hardness, and cyanuric acid
► K-2005

MOST POPULAR

362009
Taylor 7-Way Test Strips
► Tests for Free Chlorine, Total Chlorine, Total Bromine, pH, Total Alkalinity, Calcium Hardness, Cyanuric Acid
► Test results in seconds
► 50/PK

359010
Calcium Chloride
► Helps soften pool water
► Flakes
► 50 lb Bag

New!

361031
GLB Pool Stabilizer
► Stabilizes chlorine loss due to sunlight
► Maximum strength
► 8 lb. Bag

362015
Cyanuric Acid Reagent Refill for Test Kit
► Refill reagent for cyanuric test kit
► 0.75 oz. bottle

Don't Forget!
362016 Cyanuric Test Kit

POOL PROBLEM SOLVER

WHAT TO DO IF YOU FIND YOURSELF WITHOUT TRICHLOR.

As a general rule, do not add anything to your pool without testing the water first to determine what is needed. *You can't know what your pool needs if you don't test!*

1 Test the water daily (or as often as needed)
► Chlorine
► pH
► Alkalinity
► Calcium (every 2 weeks to monthly)
► Cyanuric Acid (weekly)

2 Add sanitizer and other chemicals (as needed):

- **If using Cal-Hypo**, dissolve it with a small amount of pool water a in bucket. *Always add chemicals to water, never water to chemicals!* Then pour the solution into the pool water evenly around the edges of the pool **OR** manually distribute (broadcast spread) granular Cal-Hypo into the water around the edges of the pool water and brush it down to the drain.

- **If using liquid chlorine**, pour it into the water evenly around the edges of the pool.

3 Wait for water to cycle and retest.

WATER CHEMISTRY GUIDELINES

Taylor Test Kit
362014

PARAMETER	IDEAL
Sanitizer / Free Chlorine	2.0 - 4.0 ppm
pH	7.4 - 7.6
Total Alkalinity	80 - 120 ppm
Calcium Hardness	200 - 400 ppm
Stabilizer / Cyanuric Acid	30 - 50 ppm

Adapted from PHTA B-1 Water Chemistry Guidelines

When caring for your pool, keep these precautions in mind:
• Always read product label directions and use only as directed.
• Never add chemicals to the water when people are in the pool.
• Never add chemicals through the skimmer system. Instead, add them by pouring in front of a return line or around the pool edges.
• Never mix chemicals prior to adding to the water.
• Always store chemicals in a cool and dry location out of direct sunlight.

361060
Pool Salt
- For salt chlorinator systems
- Fast dissolving
- 40 lb. bag

10%

361025
pH-Up Soda Ash
- Raises total pH (alkalinity)
- Raise 10,000 gallons 10 ppm
- 50 lb. bag

361004
Regal Alkalinity Up
- Raises total alkalinity
- Helps prevent pH fluctuation
- Protects pool surfaces from staining and corrosion
- 5 lb. Container

361047
GLB pH Down
- Granular product
- Lowers pH level in swimming pool
- pH level should be maintained between 7.2 and 7.8
- A pH level outside prescribed range reduces the effectiveness of the Chlorine in the pool
- 10 lb. pail

361027
Muriatic Acid
Gallon - 4/CS (29% HCL)
- Lowers pH
- Sold by case only
- 4 Gallons per case

29%

361035
Sodium Bicarbonate
- Keeps water balanced
- Increases alkalinity
- Minimizes skin & eye irritation
- 50 lb. bag

361023
GLB Clear Blue
Pool Clarifier
- Pool clarifier
- Helps remove organic particles from water
- Does not affect water balance
- Restores sparkle
- Biodegradable
- 1 oz. / 5,000 gal
- 32 oz.

361043
GLB Algimycin
2000 Algaecide
- Fast effective control of all algae types
- Patented non-metallic formula
- 4 - 8 oz. / 10,000 gal
- 32 oz.
