Punch-out and static catalogs only differ in the shopping experience. The final checkout process remains the same for both catalog types.

RealPage storefront is where the customer selects how they wish to shop: Punchout or Catalog (boxed in green).

Static Catalog Experience

1. Search for an item by keywords or category (boxed in green).
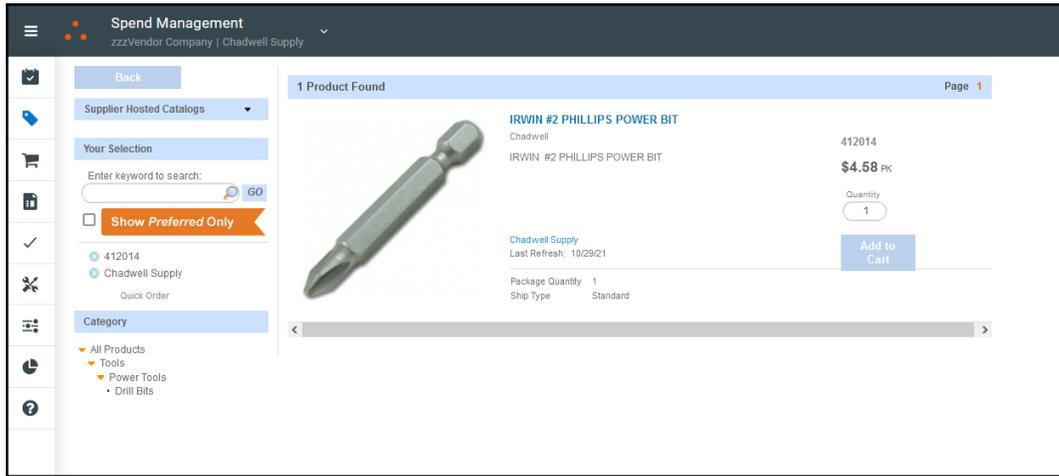

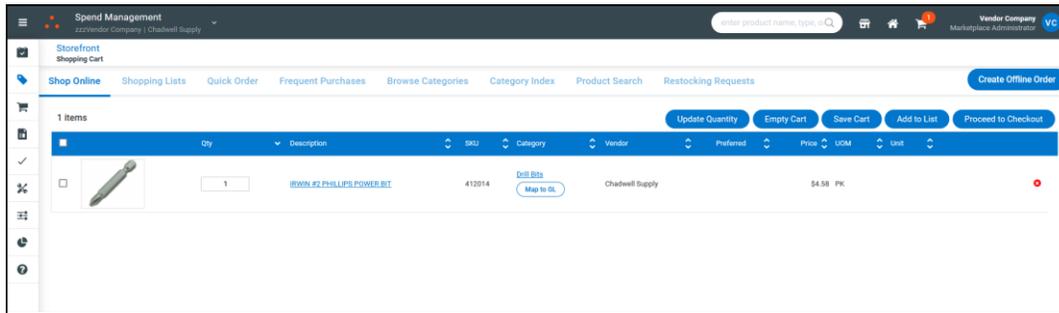

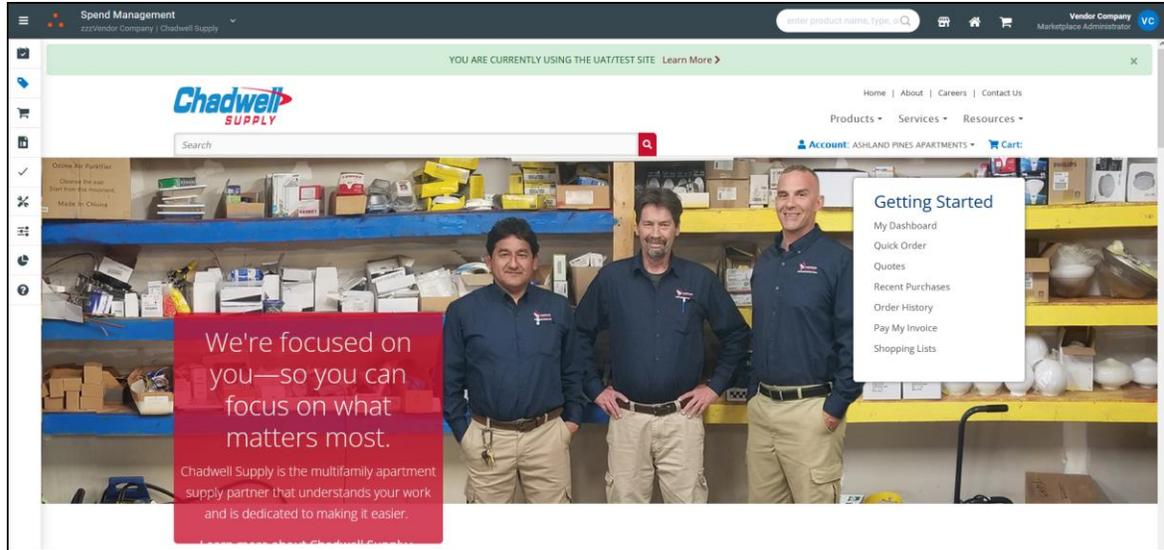

2. Select an item and add to the cart.

3. The item is ready for the final checkout process.
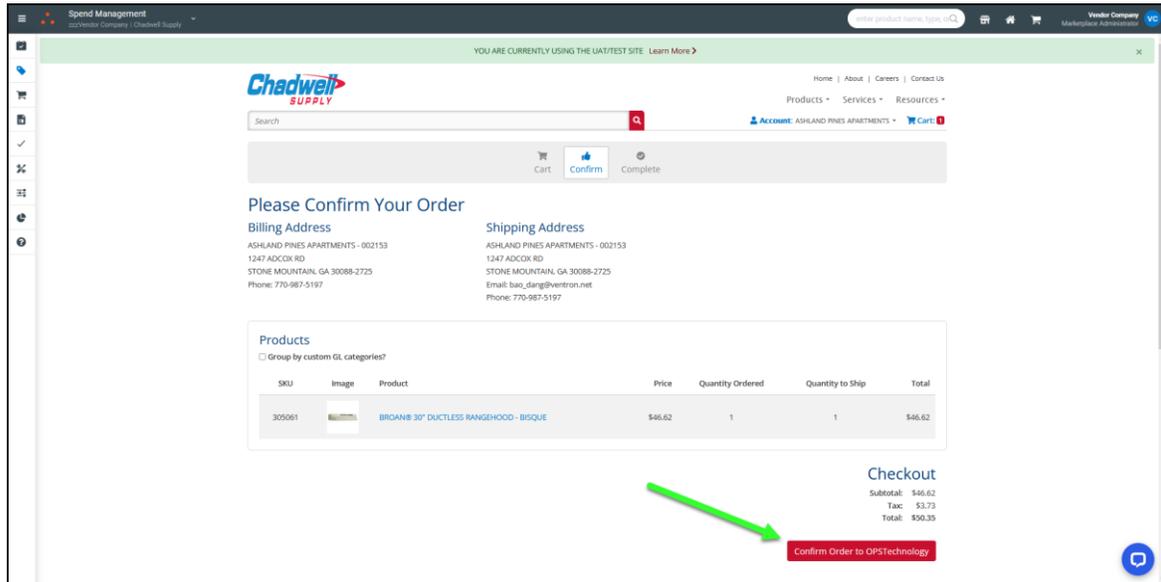

Punchout Catalog Shopping

1. Search for an item by keywords or category.

2. Select item and add to cart (indicated by green arrow).

3. Review cart and transfer cart to RealPage (Confirm order to RealPage).

4. Customer receives message stating content transferred successfully (indicated by green arrow).

5. The item is ready for the final checkout process (same as static catalog).

Note: **Images are not transferred to RealPage from Punchout.**
